Education

Wayzata High School

Sophomore (10th)

Relevant Coursework: AP Calculus AB/BC, AP Biology, AP Macroeconomics, AP Microeconomics, AP Human Geography, AP European History, AP World History, Linear Algebra & Differential Equations

Experience

International Youth Neuroscience Association (IYNA)

Department Lead

Remote
Aug 2025 – Current

- Lead 20+ Journal team editors in issue publication and cross-department collaboration.
- Handled submissions to IYNA Journal.
- Co-organized Neuroethics Essay Contest with hundreds of submissions
- Onboarded ~10 volunteers for Brain Bee Bootcamp (BBB) preparation and co-organized the IBB practice exam.
- Co-led IYNA youth neuroscience summer course, providing educational content to students globally.
- Co-coordinated the IYNA Ideathon, providing research proposal opportunities to students around the world.
- Discord Moderator of 9300+ member Discord server.

Project ANA

Co-founder

Remote
Dec 2025 – Current

- 501(c)(3) nonprofit focused on addressing eating disorder underdiagnosis in men.
- Co-lead 30+ members: 3 research, 1 advocacy (1400+ followers), and 1 internal operations department.
- Co-authored 1 scoping review with OSF; 2 IEEE conferences in review; 4-5 mini articles released; 180+ member community.
- Co-lead fundraising campaign receiving \$500+.
- Connected with ANAD + NEDA; 10+ universities in 6 countries; work with 2 PhD students actively.

Dr. Interested

Executive Assistant

Remote
Dec 2025 – Current

- UNESCO-recognized Nonprofit; ~1700 members in Discord; youth-in-medicine focused.
- Organized 4 partnerships; 295+ signups. Assisted in planning 3 in-person events with 300+ attendees.
- Helped manage 35+ volunteers in planning, post-creation, and new initiatives.

University of North Dakota

Research Intern

Remote
June 2026 – Current

- Analyze the role of histone acetylation and EP300 in cellular senescence progression using R for differential expression analysis.

**University of Iowa
Research Intern**

Remote
April 2026 – Current

- Model mitochondrial Cox gene structures utilizing AlphaFold3, FoldX, and ChimeraX to map speciation pathways in *Potamopyrgus antipodarum*.

Volunteering

**North Memorial Maple Grove Hospital
Nurse Server Attendant**

In-person
July 2025 – Current

- 360+ hours as a Nurse Server Attendant and gift shop volunteer.
- Trainer in the gift shop.
- Donated 25+ children's books in book drives.

Summer Courses/Programs

**Leaf Summer Program
Biology for a Better Tomorrow**

Virtual
July 2026 – Aug 2026

- Accepted to “Fellow” track (~1%) after 5 week course
- Summer program focusing on effective altruism and biology
- Partner of Non-Trivial
- Enrolled in the “Biology for a Better Tomorrow” course

**Action Potential Advising Program
Participant**

Virtual
July 2026 - Current

- Advisee-to-advisor mentorship program run by Simply Neuroscience
- Connected to Dr. Check Toth (Director of Multidisciplinary Laboratories at Brown University)
- Mentorship received across structural biology and protein structure research

Projects

**Gibby
Founder & Lead Developer**

Virtual
Aug 2026 – Current

- Physics-informed Graph Neural Network (GNN) to calculate Gibbs Free Energy (G), ΔG , $\Delta\Delta G$, and Binding Affinity.
- Outperform many commercial models in cost, accuracy, and reproducibility (~0.6 MAE in aquatic environment).
- Implications in structural biology research.
- Offered as both ChimeraX extension and independent website.

**Books4STEM Book Series
Author**

Virtual
June 2026 – Current

- Authored and/or edited 10+ books published on Amazon Kindle and offered in paperback format.
- Children's books focused on the intersection of math and medicine.
